[Steam](#) downloads game soundtracks to a separate folder in your game's Steamapps directory. You can right-click on a game in your Steam Library, select Properties>Local Files and click Browse Local Files to access that game's directory.

[The soundtrack consists of nice, mostly fitting, chill pieces of music for each location in the game - the Europe tracks seem more generic than the rest. Full price is only a dollar, so I can't really not recommended it if you like the game's music. The main menu theme is sadly not included for some reason.](#)
